

SAM JERISH D

FULL-STACK DEVELOPER

✉ samjerishd@gmail.com [in linkedin.com/in/samjerishd/](https://www.linkedin.com/in/samjerishd/) <https://github.com/samjerish>

ABOUT ME

Full-Stack Developer focused on building practical, user-centered solutions that **solve real-world problems through technology and creativity**. Skilled in frontend and backend development, UI/UX design, database management, APIs, and application development. I enjoy transforming ideas into functional, scalable, and responsive applications while continuously exploring new technologies and improving my development skills.

EDUCATION

(2024 - 2028)

KARUNYA INSTITUTE OF TECHNOLOGY AND SCIENCES (DEEMED UNIVERSITY)

B.Tech in Computer Science and Engineering (Artificial Intelligence & Machine Learning)

PROJECTS

DATABASE MANAGEMENT WEBSITE

REACT • TYPESCRIPT • FIREBASE • SQL

- Developed a web-based Database Management System with an intuitive interface for efficiently creating, managing, updating, and retrieving structured data.
- Integrated Firebase for **real-time database management**, secure data storage, and seamless synchronization between the application and backend.

AUTONOMOUS MOBILE ROBOT

TYPESCRIPT • OPEN CV • BLENDER

- Developed an autonomous mobile robot using OpenCV and YOLO for real-time **object detection**, environment perception, and obstacle identification.
- Implemented **autonomous navigation** and obstacle avoidance, enabling the robot to analyze its surroundings and make movement decisions with **minimal human intervention**.

WORK EXPERIENCE

2026 - NOW

FULL STACK DEVELOPER | INDEPENDENT

Independent Full-Stack Developer, building responsive and user-friendly web applications based on project requirements. Focused on combining development, UI/UX, and modern technologies to create practical solutions.

- Developed and managed web applications using frontend, backend, databases, and APIs.
- Collaborated with clients to understand requirements and translate ideas into functional digital solutions.

JUNE 2026 - JULY 2026

PYTHON DEVELOPMENT INTERN | @SWIFTANT

Worked on Python-based application development, applying **object oriented programming** principles to build structured and maintainable solutions. Gained practical experience in debugging, problem-solving, and writing efficient code.

- Developed Python applications using Object-Oriented Programming (OOP) principles.
- Strengthened debugging, problem-solving, and software development skills through hands-on projects.

SKILLS

Programming Languages: Python, Java

Web Technologies: HTML, CSS, React, Typescript

Database: SQL

Design & Media: Adobe Premiere Pro , Adobe After Effects, Photography, Video Editing,Blender
